

# ITS CANADA

## Annual Conference and General Meeting

May 10 to 13, 2009 ~ Edmonton, Alberta, Canada

### **“ITS – Transportation Solutions for Growth and Sustainability”**

ITS Canada is now organizing the technical program for the 2009 Annual Conference, to be held in Edmonton, Alberta. The overall conference theme is *“ITS – Transportation Solutions for Growth and Sustainability.”* This theme is considered relevant in ITS for both Alberta and for all of Canada.

Capital of Alberta and home to almost a million residents, Edmonton is a bustling metropolis that also has a uniquely “green” distinction: it has North America’s largest urban park system in the North Saskatchewan River Valley, providing a naturally lush, green corridor for all to enjoy. Edmonton’s music scene is lively, and the City is home to more theatres per capita than anywhere else in Canada. Along with a busy arts and culture scene, the City hosts over 30 annual festivals throughout the year, which is why the City is also known as Canada’s “Festival City.” World-class outdoor recreational facilities include over 70 golf courses. For your shopping needs, besides the downtown core and the outlying malls, there is always the world-famous West Edmonton Mall (the largest mall in North America). If you are ready for more adventures and travel, Edmonton is also called the gateway to Jasper National Park and to the North. With such diversity, you’ll be sure to enjoy something special on your visit to Edmonton.
