

Fahad Shuja is a Transportation engineer by trade, with specialization in Geomatics from Ryerson university. He currently serves as the projects coordinator for the Ontario Good Roads Association. To assist Ontario's municipalities, he has helped establish the Municipal Alliance for Connected and Autonomous Vehicles (MAC-AVO), and is spearheading MAC-AVO's first major project - the "Windsor-Ottawa Preferred Corridor", in which over 30 municipalities have identified 5000+ KMs of municipal paved and unpaved roads towards safe and coordinated testing of AVs and also other CV technologies.
