

Katelyn McFadyen is the Manager of the Energy and Environment Division at the Town of Caledon. Katelyn has a Bachelor's degree in Geography from Wilfrid Laurier University and completed her Masters degree in Environmental Sustainability from the University of Edinburgh, Scotland. In her previous role as Energy and Environment Officer with the Town, Katelyn led key initiatives including establishing a corporate energy team to implement the Town's Corporate Energy Management Plan, supported the Town's streetlight retrofit program, and established an energy revolving fund to pay for energy initiatives, independent of the tax base. In her role as Manager of Energy and Environment, Katelyn oversees the Town's community and corporate climate change mitigation and adaptation portfolio.
