

Call for Panelists: ITS Canada – ACGM 2018 Conference Young Professionals Session

ACGM 2018 – Mobility 2030: Bridging Innovation and a Green Future

Conference Description: The ACGM 2018 conference is being held June 17 to 20, 2018 in Niagara Falls, Ontario. The theme of this year's ACGM is Mobility 2030. This year's program is heavily focused on the future of mobility and bringing smarter processes to city-services and transportation infrastructure delivery. Sessions hosted include Services around CAV, Smart Cities – Smart Corridors, Green Future, Future issues in IoT and Big Data, AI in ITS and Smart Cooperation. The conference will attract industry leaders and provoke interesting conversations that young professionals will be a key part of. Further conference details can be found online here: <https://www.itscanada.ca/acgm2018/index.html>

Panelists must register for at least the June 18th conference day (one day special price: \$185) or the entire conference itself (price range is \$895 to \$995). Registration details can be found online here: <https://www.itscanada.ca/events/index.html/its/event-info/details/id/5>

Young Professional's Session [Monday June 18 from 2:00 – 4:00PM]

Session Description: Give young professionals in the ITS engineering field the opportunity to present their perspective on what mobility will look like in 2030. Considering the disruption in mobility technologies, shared service platforms and IoT connectivity (big data, smart cities, Mobility as a Service etc.), what can we do to challenge our thinking as young professionals today to better prepare for the uncertainty that awaits the industry?

Audience: Young professionals (under 40) that are keen on shaping the transportation industry

Panelists Requirements: Prepare a brief six minute presentation to engage the panel and the audience by presenting your perspective on the future of mobility and what opportunities await us (representing provincial government, municipal/regional government, consulting, private sector and academia). Panelists will also participate in a 30 minute Q&A period.

What do we need from you?

- Provide a brief description of your intended presentation (max 500 words) and how you can contribute to the conversation
- Provide a current CV
- Provide your current position and place of employment (or academic institution)

Please contact the organizers (below) with your submission.
