

BIO

Richard B. Easley

Richard Easley is the President of E-Squared Consulting Corporation and for 20+ years has led his ITS company's efforts on projects nationwide in the areas of Intermodal Freight, Transit, Traveler Information, Commercial Vehicle Operations, Electronic Payment Systems and Parking. Mr. Easley has served on various ITS related committees and is Past Chairman of Transportation Research Board's Intermodal Freight Transport Committees, as well as President of ITS Maryland. Mr. Easley has given technology presentations or workshops throughout the United States, in Asia and also in Europe. In addition to national and international ITS consulting research, Mr. Easley participates in public service work through his church in his local community and has led numerous international mission trips to help impoverished children in Central America, Haiti and West Africa.
