

Department of Civil and Geological Engineering Faculty Position in Transportation Engineering

The Department of Civil and Geological Engineering of the University of Saskatchewan invites applications from outstanding candidates for a tenure-track faculty position in transportation engineering at the Assistant Professor level.

Qualifications: Candidates must have an undergraduate degree in Civil Engineering or related engineering field. Candidates must also have a PhD in Civil Engineering or a related field and must demonstrate the ability to develop a strong research program focused on transportation safety, transportation planning and/or traffic engineering, ideally in areas relevant to Saskatchewan. Relevant experience within the North American transportation sector will be an asset. Applicants should show competence in and a strong commitment to undergraduate and graduate teaching. The successful candidate will be a P.Eng. in Canada or eligible to become an E.I.T. in the Association of Professional Engineers and Geoscientists of Saskatchewan.

Duties: The candidate is expected to establish a strong research program through externally sponsored research (e.g., collaboration with local, provincial and federal government agencies and consulting engineering firms). The successful candidate is also expected to teach undergraduate and graduate courses, including transportation engineering, transportation planning, and design.

Saskatchewan has an active transportation industry that is currently experiencing considerable growth. Moreover, the Saskatchewan Centre of Excellence for Transportation and Infrastructure (SCETI), located within the College of Engineering, is helping to foster an attractive research environment for applied researchers. Additional information about SCETI can be found at <http://engineering.usask.ca/research/sceti>.

The Department of Civil and Geological Engineering offers undergraduate programs in Civil Engineering, Geological Engineering and Environmental Engineering and postgraduate programs at the M.Eng., M.Sc. and Ph.D. levels to over 400 students. Additional information about the University can be found at www.usask.ca.

Interested applicants are invited to submit a cover letter, curriculum vitae, statement of research and teaching interests, and the names of at least three references in a single PDF file to:

Professor Leon Wegner, Head
Department of Civil and Geological Engineering
University of Saskatchewan
Email: CGEtransportation.search@usask.ca

The appointment will commence July 1, 2016 or as soon as possible thereafter. Review of applications will begin immediately, and will continue until a suitable candidate is found. Salary bands for this post are as follows: Assistant Professor - \$90,796 - \$109,108; Associate Professor - \$109,108 - \$127,420 and Professor - \$127,420 - \$148,784. This position comes with a comprehensive benefits package which includes pension plan, life insurance (compulsory and voluntary), academic long term disability, sick leave, travel insurance, death benefit, dental plan, extended health and vision care plan, employee assistance program and flexible health and wellness spending program. The University of Saskatchewan thanks all applicants for their interest; however, only applicants selected for interviews will be contacted. This position is within the scope of the University of Saskatchewan Faculty Association.

The University of Saskatchewan is strongly committed to a diverse and inclusive workplace that empowers all employees to reach their full potential. All members of the university community share a responsibility for developing and maintaining an environment in which differences are valued and inclusiveness is practiced. The university welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.
